Cómo usar este PDF

1. Empieza por la **prioridad A** (lo que necesita el capítulo 1). Después la B (mundos de noviembre) y la C (diciembre).
2. Copia el prompt, adjunta las fotos que dice «Adjuntar» y genera 2–4 opciones. Mándame la mejor de cada una; si algo no cuadra con la descripción, se repite.
3. Ponle a cada imagen el nombre de archivo que dice la ficha (por ejemplo LUCHO.jpg).
4. **Personajes y objetos** en 1:1 (hoja 2×2). **Mundos** en 16:9: son la referencia de cada lugar para Flow.
5. Las voces: ElevenLabs → Voice Design; prueba con la frase de prueba y guarda con el nombre que dice la ficha.

El look de Extravío

Todo fotorrealista y de cine, como las tomas de Flow que ya hacemos. La ciudad de Extravío: atardecer ámbar con luces mágicas **turquesa** (el color de los recuerdos). Cada mundo tiene su propia paleta, para que el público sepa en un segundo dónde está. Nada de personajes con dueño. Comedia y misterio, nunca sangre.

A magical North Pole at night under green and purple aurora borealis: a cozy giant workshop made of wood and ice with warm windows, snowy pine trees with lights, a frozen lake reflecting the aurora. Photorealistic cinematic establishing shot, 16:9, like a frame from a high-budget live-action fantasy film, natural light, rich detail, deep perspective. No characters, no animals, no people, no text, no logos.

Whimsical, cinematic, readable. Only the text EXTRAVÍO.
