Qué vende, qué se viraliza y los 52 videos de Toffee

Estudié 17 videos que venden productos para mascotas (5 de orejeras anti ruido como las nuestras), la guía oficial de TikTok y los 12 virales que me mandaste. Con eso escribí desde cero 52 videos para el 19 de octubre al 13 de noviembre: uno viral y uno de producto por día.

29 videos analizados | 52 videos nuevos | Sin tarjetas de cierre | Texto solo cuando hace falta

Videos que venden productos para mascotas

Los saqué de las búsquedas de TikTok "dog earmuffs for fireworks", "best selling pet products" y "dog calming products". Los revisé cuadro por cuadro y transcribí lo que dicen. Estos son los 12 más claros.

Lo que une lo viral y lo que vende

El primer cuadro ya es el video

Ni los virales ni los que venden tienen introducción. El cuadro 1 es la cara del animal, el problema o el producto funcionando.

Parece grabado por un dueño, no por una marca

Celular, luz de la casa, tomas imperfectas. La guía oficial de TikTok pide lo mismo: estilo casero y nada demasiado pulido.

Una sola idea por video

Un gesto (los loops), una relación (los dúos) o un problema con su solución (los de producto). Nunca dos cosas.

Lo que vende es ver el cambio

En todos los de orejeras el momento clave es igual: el perro que temblaba, ahora dormido. Esa toma es la prueba y es la que hace comprar.

El sonido hace la mitad

Canción en tendencia, música emotiva o una voz que cuenta la historia. Ninguno se ve bien sin sonido.

Cortos

Los virales duran de 6 a 18 segundos. Los de producto que más venden, de 10 a 16; los más largos son listas o historias con voz.

Ninguno termina con una tarjeta

Revisé los 29 videos: ninguno termina con una pantalla aparte con logo, foto y precio. El único con logo al final es de una tienda vendiéndole a otras tiendas.

El llamado va encima de la última toma

Cuando hay llamado, es una línea de texto sobre la prueba ('Comenta CALM si tu perro las necesita') o la voz que lo dice. 'Comenta una palabra' es el más usado: trae comentarios y te deja mandar el enlace a cada persona.

Cuándo va texto y cuándo no

Lo pongo yo al editar, y solo así:

Loops, dúos y tendencias

Sin texto. Así son 10 de los 12 virales.

Caras para audio meme

Una línea arriba con la situación, como el gato de 'debería irme a vivir al monte'.

Toffee habla

Subtítulos de lo que dice.

Producto: historia y unboxing

3 o 4 líneas cortas que cuentan la historia y la última sobre la prueba: 'Comenta CALMA…'. Así son los 5 videos de orejeras que venden.

Producto: demostración

Sin texto. El llamado va solo en la descripción, como el de 35 M.

Producto: prueba de una toma

Una línea graciosa arriba todo el video.

Cómo se vende sin enlace en TikTok

"Comenta CALMA"

Una palabra por producto

Es el llamado de los videos de orejeras que venden. La persona comenta la palabra y tú le respondes el comentario como Toffee: "¡Aquí está, humano! soytoffee.store 🐾". En Instagram, además, le escribes por mensaje.

CALMA para las orejeras, ÁRBOL para el disfraz y TRINEO para la cama. Cada comentario además le dice a TikTok que el video interesa, y lo muestra a más gente.

Responde rápido

Revisa los comentarios al mediodía y en la noche. Mientras más rápido respondes, más fácil es que esa persona compre.

Toffee como marca

Lo que se repite en todos los videos: el gorro, Galleta, el parpadeo lento de Toffee y #ToffeeyGalleta. No hacen falta logos ni tarjetas: la gente reconoce al personaje.

Los 11 formatos que usamos

Loop de un solo plano

Una sola toma fija, un gesto pequeño y el final igual al inicio. Es el formato de los 3 virales más vistos (144 M, 39 M y 32 M).

Texto: Sin texto

Toffee y Galleta sin palabras

Ternura entre dos personajes, sin diálogo, entendible en cualquier país. Como Yumbo & Shoan (163 mil seguidores en 3 semanas).

Texto: Sin texto

Cara para audio meme en español

La cara de Toffee actúa un audio famoso. Como el gato de 'debería irme a vivir al monte' (5,7 M).

Texto: Una línea arriba con la situación

Toffee habla

Personaje con voz propia en español, como Jake (2,4 M seguidores) y Emma (445 mil).

Texto: Subtítulos de lo que dice

Tendencia de la semana

El personaje metido en la tendencia del momento, como hace Molang (4,2 M seguidores).

Texto: Sin texto

Historia problema → solución

La fórmula de los videos de orejeras que más venden: el problema (perro con miedo), 'probé esto', y la prueba (perro dormido). Varios de esos videos están hechos con IA.

Texto: 3 o 4 líneas cortas de historia y la última sobre la prueba: 'Comenta CALMA y te paso el enlace'

Demostración sin palabras

Manos usando el producto en primer plano, sin texto ni voz. El video de producto más visto del estudio (35 M) es así.

Texto: Sin texto. El llamado va solo en la descripción

Unboxing con la mascota mirando

'La mejor compra que he hecho': abrir el paquete frente al perro, el problema y la prueba. Formato de 3 videos de orejeras que venden.

Texto: Líneas cortas de historia y 'Comenta CALMA' sobre la prueba

Prueba de una sola toma
Un plano fijo del resultado con una frase graciosa. Como el dálmata de las gomitas calmantes (1,1 M): el producto casi ni sale.
Texto: Una línea arriba todo el video

Toffee lo cuenta con su voz
Voz en off en primera persona con subtítulos, como los videos de orejeras y del plato de lamer (17,7 M). El llamado lo dice la voz al final.
Texto: Subtítulos de la voz

'Cosas que le compré a Galleta'
Lista rápida de productos, como 'best puppy gadgets' (10,3 M) y '10 cosas que compré para mis perros'.
Texto: El título arriba y el nombre de cada producto

Método Víctor: entretener y terminar en el producto
Gancho general, contexto, enseñanza y llamado a comentar una palabra (entrevista de Víctor Heras).
Texto: Subtítulos de la voz

Cómo usar este plan

Cada día	Genera en Flow los videos del día siguiente: copia el prompt, sube las imágenes de referencia en ese orden y pon los ajustes que dice. Me mandas cada toma y yo te devuelvo el video armado.
12:30	Publica el viral en TikTok y en Instagram, con su canción y su descripción.
7:30 pm	Publica el de producto.
Noche	Responde los comentarios: a quien escribió la palabra, le dejas soytoffee.store.

Créditos de Flow
Todo el plan en x2 son 1638 créditos. En x1 son la mitad (819). Si te faltan, saca x1 y repite solo la toma que salga mal.

El lunes 19
Hoy no alcanzas a generar los de hoy y los de mañana. Hoy publica R1 y V3, que ya están editados, y genera N1 y M1 para mañana. Así vas siempre un día adelante.

Los videos que ya tienes
R1–R4, T1, T2 y V1–V5 quedan de reserva para los días en que no te alcance el tiempo o los créditos. Les quité las tarjetas de cierre.

El 25 de octubre y el 2 de noviembre me mandas las estadísticas, y hacemos más del formato que gane.

Vertical 9:16 video, 8 seconds. One continuous shot, no cuts. Toffee (the chubby round cream-caramel British Shorthair cat from the reference image, solid color, no stripes, big round green eyes, round cheeks, wearing a navy blue knitted nightcap with a drooping tip and a cream pompom). Scene: Toffee sits upright on a beige knitted blanket on a sofa in the afternoon, close to the camera. The video starts mid-action. 0-8s: he is falling asleep sitting up: his eyes slowly close, his round head slowly drops forward, then he jerks awake with wide eyes, blinks, and his eyes start closing again; he ends in exactly the same position as the first frame, seamless loop. Camera: static, locked-off, eye level, chest-up framing. Light: soft warm window light. Style: photorealistic phone video, real dense fur, realistic anatomy, natural subtle expressions; not cartoon. Sound design: quiet room tone, a tiny sleepy breath. No music, no speech. The nightcap stays on Toffee's head the entire time. No text, no letters, no logos, no watermark, no other animals.

Vertical 9:16 video, 8 seconds. One continuous shot, no cuts. Toffee (the chubby round cream-caramel British Shorthair cat from the reference image, solid color, no stripes, big round green eyes, round cheeks, wearing a navy blue knitted nightcap with a drooping tip and a cream pompom). Scene: Toffee lies in a messy blanket on a bed, just woken up, very close to the camera. The video starts mid-action. 0-3s: he slowly lifts his head, eyes barely open, fur messy on one side of his face, deeply annoyed. 3-6s: he stares straight into the lens with heavy half-closed eyes and ears turned sideways, judging. 6-8s: one long slow annoyed blink, then he drops his head back into the blanket. Camera: handheld phone, natural movement, close. Light: dim morning light. Style: photorealistic phone video, real dense fur, realistic anatomy, natural subtle expressions; not cartoon. Vertical 9:16 video, 8 seconds. One continuous shot, no cuts. Reference
images: one is Toffee, one is Galleta, one is the pet bed. Toffee (the
chubby round cream-caramel British Shorthair cat from the reference image,
solid color, no stripes, big round green eyes, round cheeks, wearing a navy
blue knitted nightcap with a drooping tip and a cream pompom) and Galleta
(the exact same dog from the reference image: scruffy wiry golden-brown
Latin American criollo mutt, floppy ears, bushy eyebrows and beard, white
chest and paws, navy blue bandana with a golden bone tag). The video starts
mid-action. 0-8s: both end up squeezed together inside the red sleigh-shaped
pet bed from the reference image: plush red body, fluffy white trim, 'Merry
Christmas' embroidery, red-and-white striped runners and a small rope at the
front, Galleta half hanging out of it, both falling asleep; Toffee opens one
eye at the camera and slowly blinks. Camera: handheld, slow push-in. Style:
looks like a real video filmed by a pet owner on a phone, natural home
light, slightly imperfect handheld framing, photorealistic, real dense fur,
realistic animal anatomy and natural expressions; not an ad, not cinematic,
not cartoon. Sound design: soft snores, a purr. No speech in the clip: the
voice is added later. Characters do not move their mouths. No music. The
product must look exactly like its reference image and be clearly visible.
The nightcap stays on Toffee's head the entire time. The bandana stays on
Galleta the entire time. No text, no letters, no logos, no watermark, no
other animals.

The video starts mid-action. 0-8s: close shot of Galleta's tail wagging happily behind the green ruffles; the camera rises to his happy face; Toffee sits next to him and slowly blinks at the camera. Camera: handheld. Style: looks like a real video filmed by a pet owner on a phone, natural home light, slightly imperfect handheld framing, photorealistic, real dense fur, realistic animal anatomy and natural expressions; not an ad, not cinematic, not cartoon. Sound design: happy tail thumps. No speech in the clip: the voice is added later. Characters do not move their mouths. No music. The product must look exactly like its reference image and be clearly visible. The nightcap stays on Toffee's head the entire time. The bandana stays on Galleta the entire time. Toffee (the chubby round cream-caramel British Shorthair cat from the reference image, solid color, no stripes, big round green eyes, round cheeks, wearing a navy blue knitted nightcap with a drooping tip and a cream pompom) and Galleta (the exact same dog from the reference image: scruffy wiry golden-brown Latin American criollo mutt, floppy ears, bushy eyebrows and beard, white chest and paws, navy blue bandana with a golden bone tag) wearing the green Christmas-tree dog costume from the reference image: a green hooded cape with layered ruffled tiers, small colorful pom-pom ornaments, a white cord and a yellow star on top of the hood. Scene: a Colombian family Christmas photo on a sofa (people visible only from the shoulders down, no faces). The video starts mid-action. 0-8s: Galleta sits in the middle of the family photo in his costume; Toffee sits on the armrest and slowly blinks at the camera as the phone flash goes off. Camera: handheld. Sound design: a camera shutter, laughter. No speech in the clip: the voice is added later. Characters do not move their mouths. No music. The product must look exactly like its reference image and be clearly visible. The nightcap stays on Toffee's head the entire time. The bandana stays on Galleta the entire time.
